

Dear Applicant:

Thank you for your interest in the Pacific University Psychological Service Center Internship program. Enclosed please find our updated application packet. We use the online standard APPIC Application form, which you need to submit by November 15, 2009. We also use a "Supplemental Information Form" which allows us to match you with your preference of external rotation in as much as possible. We have 3 full-time positions available for the 2010-2011 year. **The PSC's match Program Code # is 152611.**

We are participating in APPIC's Internship Matching Program, so you should request an Applicant Agreement Package to submit to the National Matching Services. Without such an application, you will not be able to be considered for any internship programs participating in the matching program. We are a member of APPIC and abide by all of its standards.

We are pleased that you are considering our program. Many of our past interns are in the area and would be good resources to learn more about the program. If we can provide you with any further information please let us know. We are looking forward to receiving your completed application.

With best wishes,

Lisa Christiansen, Psy.D.  
Director of Psychological Services  
Internship Training Director

Kristi Kephart  
Administrative Assistant
